

ENRICHMENT EVENTS

AROMATHERAPY WORKSHOPS: our residents create essential oil sprays, sachets and ornaments.

ROCKING AROUND THE WORLD: we bring the mines to the residents. Gems and minerals from all around the world get examined.

HELLO CHILDREN PROJECT: what stirs old, forgotten memories for our dementia patients? Children! Parents bring their children to the secured memory units for an hour of fun with our residents.

TRIPS AROUND THE WORLD: "New York, New York" - a virtual trip back to the late 1940s in New York City | "Viva Italia" - a virtual trip to Italy | "Ancient Jerusalem" - a non-religious, virtual trip back to ancient times. (All trips are filled with fun, educational trivia, music, and refreshments specific to that destination.)
